

Caregiver Agreement for 1919 Boston St SE

Under the current Executive Order, Beacon Hill at Eastgate is deemed a congregate care facility. This means that only essential personnel are permitted to enter the building. A personal caregiver is deemed essential under this order and is allowed in the building and in a resident's apartment home. A caregiver may help a resident in their apartment home and may help them travel to and from community spaces. Caregivers are not permitted to eat in our resident dining rooms and garden café at this time. Should a resident need assistance with their meal, we ask that you order meals to be delivered. As a resident of the Independent Living facility, we are holding each resident responsible for their visitors and/or caregivers and for following the Beacon Hill visitation policies. We are asking you to please sign this agreement.

I, _____, agree that I will abide by the visitation policies set forth below. I agree to the following:

- My caregiver will sign in upon entering.
- My caregiver must be able to pass a COVID-19 screening before entering beyond the concierge desk.
- My caregiver will wear a mask when walking in Beacon Hill community spaces.
- My caregiver and I will follow proper social distancing guidelines of staying 6' apart.
- My caregiver will remain in my apartment home except when assisting me to and from Beacon Hill community spaces (Community Room, Dining Room, Bistro, Garden Cafe, Mail Room, Fitness Center, Auditorium).
- My caregiver will wait for me in my apartment home or outdoors while I attend an activity in a Beacon Hill community space.

It is critical that you comply with every requirement listed above. By signing this agreement you agree to adhere to these precautions.
